Objective:

The objective of the session was to give an overview of the features and functioning in “ServiceNow”, which is a cloud-based platform.

Content:

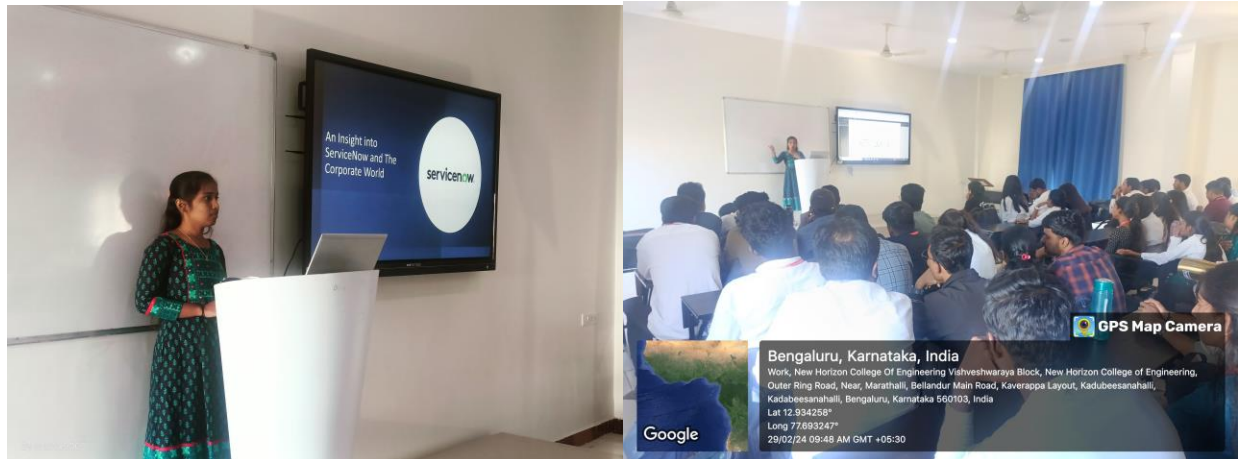

- What is ServiceNow?
- What Makes ServiceNow Unique?
- ServiceNow Developer Tools
- What does ServiceNow Offer?
- How do I grow in the Organization?

Summary of Content:

The session started with a brief introduction about ServiceNow. The demo of a ServiceNow tool was given to the students which provided better understanding on how the platform works and various portals related to ServiceNow. It was an interactive session and students came up with different queries related to this cloud-based platform, few students were interested to know more about the platform.

The session ended with few discussions about the benefits and how it is used to facilitate the business operations. Students were benefited immensely by this session and had a great learning experience.

Snapshot of the session:

Outcome:

Students had an opportunity to learn about a new tool which is both a ticketing and development tool. Also they learnt some additional and interesting facts about the qualities and skills to be developed in order to grow in the corporate world.
