

NEW HORIZON COLLEGE OF ENGINEERING

EVENT NAME: Social Outreach Activity

organized by
Department of MCA

DATE: 20th June 2025

VENUE: Government Higher Primary School

BRIEF DESCRIPTION OF THE EVENT:

Introduction

The social outreach activity conducted by students of MCA, titled "**Udaan: Igniting Futures with Ray of Mind**," was aimed at creating a positive impact on young school children by fostering digital awareness, emotional well-being, and self-confidence. The initiative reflected the students' dedication to community engagement and their desire to contribute meaningfully beyond academics.

The event took place at **Government Higher Primary School, Devarabisanahalli**, located on the outskirts of Bangalore. Serving students from underprivileged backgrounds, the school provided a meaningful setting for this outreach effort. Through interactive sessions and engaging activities, the program sought to broaden the children's horizons and encourage them to dream big.

Objectives of the Visit

The outreach activity aimed to achieve the following goals:

Social Objectives: Promote community engagement by encouraging empathy, compassion, and a sense of social responsibility among MCA students and school children.

Educational Objectives: Enhance foundational learning through interactive activities such as digital literacy, creative expression, and basic computer awareness.

Emotional Objectives: Inspire self-confidence, curiosity, and a positive mindset in school children through motivational sessions and peer-led interactions.

Expected Outcomes:

- Strengthened student understanding of social responsibility by actively involving MCA students in planning and executing a community-focused initiative.
- Enhanced engagement and motivation among students at Government Higher Primary School, Devarabisanahalli through interactive learning sessions and personal encouragement.
- Recognized the need for ongoing support to the school in areas such as digital education, student mentoring, and skill-building initiatives.

Details of the Institution Visited

- Name: Government Higher Primary School
- Location: Devarabisanahalli , Bellandur , Bangalore, Karnataka 560103
- Number of Beneficiaries: Approximately 60 students

Activities Conducted

The following activities were conducted

Learning Engagement: MCA student volunteers conducted storytelling sessions, introduced basic educational and technical concepts such as fundamentals of computers, and demonstrated simple digital tools to enhance awareness and interest in technology.

Creative and Recreational Activities: Students engaged the children in music, drawing, and interactive games to foster creativity and participation in a relaxed, enjoyable environment.

Motivational Interactions: Through both one-on-one and group discussions, the volunteers shared encouraging messages and real-life stories to motivate the students to pursue their aspirations with confidence and curiosity.

Student Participation

Students were divided into dedicated teams to ensure smooth planning, execution, and engagement throughout the outreach program.

Teaching Team: Focused on delivering educational content, including storytelling, basic academic topics, and introductory technical concepts.

Activity Team: Managed recreational segments such as drawing, music, and interactive games to keep the students engaged and enthusiastic.

Logistics & Coordination Team: Oversaw the schedule and ensured seamless interaction with the staff and students at Government Higher Primary School, Devarabisanahalli, contributing to the program's effective and organized execution.

Feedback and Reflections

Response from the School: The teachers and students at Government Higher Primary School, Devarabisanahalli expressed heartfelt appreciation for the visit. The engaging and interactive sessions created a joyful atmosphere and left a lasting impression on the young learners.

Volunteer Reflections: MCA students described the experience as deeply fulfilling. Many shared that the program gave them a renewed sense of purpose and helped them better understand the value of empathy, education, and community service.

Observed Impact: The children showed enthusiastic participation, particularly during storytelling and technical concept sessions. Their curiosity and eagerness to learn were evident throughout the program.

Conclusion

The "Udaan: Igniting Futures with Ray of Mind" outreach activity proved to be a meaningful and impactful experience for both the MCA volunteers and the students of Government Higher Primary School, Devarabisanahalli. It offered an opportunity for the volunteers to engage deeply with the community, understand the significance of outreach, and witness firsthand the transformative power of encouragement and education in shaping young minds. Through this experience, the volunteers reported enhanced interpersonal communication skills, improved emotional awareness, and a heightened sense of social responsibility. It also reinforced the importance of adaptability, empathy, and teamwork in real-world settings. Inspired by the positive response and observed impact, the department is committed to continuing such initiatives in the future, with plans to incorporate extended digital learning sessions, structured mentorship, and sustained engagement with schools to support holistic student development.
